## EXPERIENCE

### United Wholesale Mortgage, Pontiac MI — *Software Quality Engineer*

December 2020 - PRESENT

Building selenium scripts in C# and Python to test outward facing applications, and automating internal facing applications. Occasionally using MVC to write internally used software. Architected Python/Selenium framework for use in AppDynamics.

### Best Buy, Bloomfield, MI— Computing Sales Consultant

November 2018 - November 2020

Created solutions for customers based on their needs, and recommending the best possible hardware for them to accomplish their goals while maintaining scalability for the future.

## EDUCATION

### Oakland Community College, Farmington Hills — *Extended Associates Degree in Applied Science and Software Engineering*

October 2016 - April 2020

Degree focussed on training for Full Stack development, Backend in Java EE, SQL, frontend in HTML and Javascript with JQuery.

## PORTFOLIO
