EXPERIENCE

United Wholesale Mortgage, Pontiac MI — *Software Quality Engineer*

December 2020 - PRESENT

Building selenium scripts in C# and Python to help test outward facing applications, and automating internal facing applications. Occasionally using MVC to write internally used software.

Best Buy, Bloomfield, MI— Computing Sales Consultant

November 2018 - November 2020

Creating solutions for customers based on their needs, and recommending the best possible hardware for them to accomplish their goals while also having it scale well for the future.

EDUCATION

Oakland Community College, Farmington Hills — *Extended Associates Degree in Applied Science and Software Engineering*

October 2016 - April 2020

Degree focussed on training for Full Stack development, mostly in Java, SQL, HTML and Javascript.
